Holidays!

National Digital Check Form

We encourage you to visit the website for the digital checkup form, this will provide your respective counties with data that you can then use when applying for future child passenger safety funding.

The hard copy version of the new NDCF tool is available now. The Dashboard will have new variables and offer vehicle compatibility with car seats.

To read more about the use of the NDCF [HERE](#) is a very short policy brief recently released by the National Safety Council (nsc.org).

**Partnership for
Health Equity
and Inclusion**

We are here to support!

Please contact PHEI staff if you have any CPS programmatic, Technician Training support needs or questions, please visit our website at phei-ca.org to learn more about our organization and contact Manveer directly at manveer.sahota@phei-ca.org
