Smoke-Free Trinity: Public Opinion Poll 2024

These preliminary results were collected by the Living Independent from Tobacco (LIFT) project in the Public Opinion Poll 2024.

How supportive are you of a smoke-free policy to eliminate smoking in all outdoor areas in Trinity?

77% of Trinity residents were supportive

How Important is Public Opinion?

When community surveys are conducted, it's not just to collect data and numbers. It's also about understanding the public opinion of the community. It is important to know what needs affect people and what changes are necessary to improve their lives.

81%

agree that making parks and outdoor public places smoke-free would improve the health of the community in the city

Public Comments from Trinity residents that participated in the public opinion survey about smoke-free policies:

- “ Smoke-Free is the way to be
- “ I want fresh air. People die from secondhand smoke, and so much more.
- “ I don't recommend it at all it's very bad for the persons health and for everyone else around it, but people make their own choices.
- “ Would be nice to enjoy outside without the smoke
